SUMMARY

Motivated and detail-oriented Junior Software Engineer with hands-on experience in web development and skilled in integrating AWS services into scalable applications.

Passionate about continuous learning and staying updated with emerging technologies in software development and cloud services.

EDUCATION

| | |
|---|-------------------|
| BSc Hons Computing and IT (Software) | 2023 - Current |
| The Open University | Milton Keynes, UK |

EXPERIENCE

| | |
|----------------------------------|----------------------|
| Software Engineer Starter | 11/2024 - Current |
| West Northamptonshire Council | Northamptonshire, UK |

- Develop web forms using Jadu with HTML, CSS, and JavaScript.
- Integrate AWS services such as Lambda, DynamoDB, Beanstalk, and EC2 into applications.
- Manage and resolve tickets related to bug fixes, features, and client requests.
- Collaborate with cross-functional teams to ensure timely project delivery.
- Conduct unit and integration testing to identify and resolve issues.
- Continuously learn and apply new technologies related to software development and cloud services.

| | |
|-------------------------------|-------------------|
| System Support Officer | 07/2024 - 11/2024 |
| Housing21 | South Region, UK |

- Acted as the primary contact for care system software in the South Region, providing support via phone, in-person, and MS Teams.
- Managed project lifecycle from planning to go-live, ensuring timely implementation.
- Led User Acceptance Testing (UAT), coordinated data migration, and provided feedback.
- Delivered training during go-live for seamless integration.
- Reported progress, addressed concerns, and communicated updates to Regional Patch Managers and Project teams.
- Recommended improvements and advocated software benefits across the business.
